

PILLAI COLLEGE OF ENGINEERING
(Autonomous)
Course: Natural Language Processing

Name: Verma Nancy Shivasre	DOP: 31-03-2026
Roll No: 64	DOS: 31-03-2026
Division: A Batch: A3	Score: 44

Assignment

Quiz on Google Course
Google DeepMind: AI Research Foundations
Natural Language Processing on Google Cloud
Transformer Models and BERT Model

Objective: To evaluate students' understanding of key concepts from Google courses, including AI research foundations, Natural Language Processing on Google Cloud, and advanced models such as Transformer architectures and BERT.

Outcome: Students will demonstrate their knowledge of modern AI and NLP techniques, including the application of Transformer and BERT models, as well as their ability to interpret and apply concepts from Google Cloud-based NLP solutions in practical scenarios.
